Sodium metasilicate-5-hydrate

Product Code 1000589

CAS No. 10213-79-3

EINECS-No. 229-912-9

Parameter	Value	Unit
SiO ₂	ca. 27,0 - 29,4	%
Na ₂ O	ca. 28,0 - 30,5	%
Loss on ignition	ca. 42,0 - 44,0	%
Insolubles	max. 0,020	%
Iron	max. 0,01000	%
Bulk density	ca. 0,800 - 1,050	g/cm ³

| Data have been changed compared to the previous version.

The above details describe the composition of the product as stipulated in our contract at the time of risk transfer. They are regularly checked by our quality control. These details and properties of product samples do not guarantee properties and particularly do not entail any statement about the suitability of the product for a specific use; therefore no claims for damages can be derived against us. These specifications do not release the customer from an incoming goods inspection. This information is no foundation for any claims of a third party, who this information has been forwarded to. This information is computer generated and is valid without signature.
